Jan's Song

Mark Searcy

There's Jan calling from the rooftops
She says, she wants the world to hear
Her peoples needs their basic rightsShe shouts, I'll make you understand
What it is we're striving for?
A better deal across this landShe puts her hat on
Looks in the mirror
Says to herself
You've nothing to fearHer friends, won't argue
Her friends, don't care
Now is the moment
To get out of hereJan's friends, they're marching in the streets
The anger in their hearts provides a steady beat
On and on, and on, and onThere's Jan calling from the rooftops
She says, she wants the world to hear
Her peoples needs their basic rightsShe puts her hat on
Looks in the mirror
Says to herself
You've nothing to fearHer friends, won't argue
Her friends, don't care
Now, is the moment
To get out of hereGenerosity
Noble words to be
Our democracy
Noble words to me
