Consideration

Abja

I don't think that kindness is a weakness
I don't have a problem with compassionTell me what you're thinking? Would you like to be so high?
Could you give consideration to something that you did not realize? Yeah
Would you close your ears to the things you did not believe?
Tell me would you be strong? Would you be the one to carry on?
Tell me would you be strong? Would you be one to carry onI don't think that kindness is a weakness
I don't have a problem with compassion
Would you close your ears to the things you did not believe?
Tell me would you be strong? Would you be the one to carry on?
Tell me would you be strong? Would you be one to carry onHalf don't come here, half don't come here
Half don't come here, so I doIt's gonna be alright
It's gonna be alright
It's gonna be alright
