Strange World

The Majestics

On Santa Monica city hill
We watch the people who gather here
We're uninvited who lost their way
And now we're all here to stay
Chorus:
And it's a strange world, there's nothing to it
Strange world, I'm getting through it
Strange world, we get it over
It's a strange world after all!
.the colorful lives we run
To catch the glimpse of the setting sun
I can't imagine how life would be
If you're not here with me!
Chorus:

Strange world ta ta ta
Strange world after all.
...The sky is so blue
You take... and I love you!
You can drag your car to the.
Or ride your bicycle anywhere
It doesn't matter that much to me
cause we're pretty...
Chorus:
And it's a strange world, there's nothing to it
Strange world, I'm getting through it
Strange world, we get it over
It's a strange world after all!
