Luminescence

Silvard

[Issa]
They say your dreams just like the lotto no one gets those
But I go slow drivin' down [?] lane dodging pot holes
UA drop [?] fuel the planet keep the motto
Started from the bottom now the whole planets colossal[AK]
Elevated knight [?], fuck the hype and fix your life homie pronto
Heights and do it right don't [???]
Guard your wife I might grab her like Fronto, Head Honcho
Try to intrude you get combos,
spreading the truth right through your kind of soul
Light up the Oogle
and let your pride show better be truthful
now only time knows, what are we gonna do [???][Issa]
We ain't bullshittin' I'm the Bull's Pippen
something cold sippin right before I rip shit,
Beast Coast clan we the Gold grippin',
fucking show killing getting souls uplifted
My opinion your mind is twisted
My mind is gifted, glow shinning different
Remember them times, not a pot to piss in
Now we poppin' shit like we got to gripping[AK]
I be on top of prisms like fuck the system
Light shining through me, got Apex vision
Puff holy flowers, got ancient wisdom
Said the world is ours, within us
Demonstrate with the life I make
First they hate, but in God they relate
Travel the globe, pushing the darkness away
It's a long way home, I'm about to spark me an eighth[Issa]
We the same dog, I just pay the cost
I have my own cross with my own thoughts
Symbolic for being reborn these niggas [?]
But they don't need heart, they pump your brain better be smart
Keep a keen heart, shoot it from the dark
Like camels partner, I'm spitting proper
Them Egypt prophets no one can stop us[AK]
Rays chop chop but they need binoculars
Too far ahead, gods speed, you calmin' us
Shed no tear nor flee the evil

Keep enemies close so it's easy to eat you
Youngin' never listen to what the teacher teachin'
Now a nigga grown, [?] must lead the people
Hopeless [?] leave them see through
Generate a culture, and the rewards are peaceful
Gonna be a day, hope a nigga alive
Got no time to waste UA tryna get high,
take a toke than I'm straight no fear at Oz,
don't boast nor fake can't live no lie,
young lords on my team,
yeah we all wanna scream Beast Coast mother fucker
watch or ride to regime, we smoke by the zip blow it
down til I'm steamed, bringing hope
to my set it was all just a dream[Issa]
2Pac lives [???] when i talk shit solo start
tonight inside audience[?] thowin' shots but they always miss
Real nigga like a Saudi prince, my nigga [???] took it cold as shit
On a flame see how hot I get, cool down with a fire piff
Words keeps me on some higher shit adapt to my environment
The young Zioness[Ak]
They define shit, with my eye [?]
and my godly flow when my mind is rich,
my dollars fold and you counterfeit straight clone
no soul then devoured it, netter hold your own don't get blinded kid
Cuz I'm on the same road, liquid knowledge [?]
Higher learning, fire burning on my Ganja spliffs
The tables turning now I'm earning from accomplishments, Bitch[Issa]
Congratulations nigga ya been patient,
Lords of the Bush with the crack, we laced it,
Proclamation know we had to say this
put them back to basics now we activating off this lame shit,
hopped in this spaceship taking off no waitin' blowing off like [???}
Never copy don't bother changing be yourself my nigga,
only way to make it[Ak]
Face the hatred let it out,
creating because without the faith you will amount to mayhem[?],
trust me dog don't make it harder if you can
[???] the youth and make a better nation
Set em free through my melodies
and my energy from my pedigree
[???] your majesty, nigga
