We Won't Dance

Vince Gill

We won't dance no more
We won't shine out on the floor
We won't sway, the band won't play
We won't danceI kid you not we were hot
When the weekend came we'd dance non-stop
No jitterbug, no substitute, no twist and turn
No crash and burn could top us twoWe won't dance no more
We won't shine out on the floor
We won't sway, the band won't play
We won't danceAs I dipped you down in your yellow dress
We'd brush the floor in a slow caress
As minutes turned to a rising sun
We'd leave the day to rest, our dancing doneWe won't dance no more
We won't shine out on the floor
We won't sway, the band won't play
We won't danceIf I were God, and controlled what is
I'd steal your shoes so you couldn't dance with him
Well, I'm not all that I could be but you'll never dance
With him the way you danced with meWe won't dance, we won't dance
We won't dance, we won't dance
No I'm not all that I could be but you'll never dance
With him the way you danced with meNo, we won't dance no more
We won't shine out on the floor
We won't sway, the band won't play
We won't danceNo, we won't dance
