Mood

Porches

I just wait around
To hear the good news
To hear the good news
I just wait around
To hear from you
To hear from you
Are you in
The mood
Oh I think I
I said the wrong thing
Don't know what I do
But I don't wanna be here
Don't wanna be here
So I just wait around
To hear the good news
To hear the good news
If you want
To be on your way
Well you don't have
Have to stay
