Deadlights

Gehenna

from the east
a thundering roar is heard
countless victims
struck by fear
as the time draws near,
anticipation builds
the aggressor attacks
and leaves no man alivethe beast rises from out of the pit
to tell the news of man's destruction
to wage war against every nation
the time has come to killprotector and destroyer of worlds
in your rage lies the death of the earththe flames reach towards the sky
and the earth dies
