

Getting Through

EMF

I'm too honest when I'm scared

When I first looked in I was young and caredThese are ways of getting throughI left my trust on the tail of youth

We were so unsure of the things we'd seenThese are ways of getting through

These are things I'd do for you

And ask me and ask me, I'll be there tooI never learned to ask what's fair

It's just the words we use take us thereThese are ways of getting through

These are things I'd do for you

And ask me and ask me, I'll be there tooI never touch fortune, I never regret

It's just a simple task to touch your depthsThese are ways of getting through

These are things I'd do for youThese are ways of getting through

These are things I'd do for you

And ask me and ask me, I'll be there tooI never touch fortune, I never regret

It's just a simple task to touch your depths

And I'm always too honest when I'm scared

When I first looked in I was young and caredThese are ways of getting through

These are things I'd do for you

And ask me and ask me, I'll be there too
