

# You Baby

Teena Marie

Boy you dropped a bomb on me a long, long time ago  
And all I ever wanted was to love you baby  
Something sacred in my life, a flame to burn, a candle bright  
I want to stay just for your loving baby (?)  
Known so many others in my life, none like you  
No one else can make me feel the things you do  
And if I had the chance to do it all again  
I'd do it 'cause you've always been my true love and my best friend  
You baby, you baby, you baby  
(All I ever wanted was)  
You baby, you baby, you baby  
(All I ever needed baby)  
You baby, you baby, you baby  
(Understand me child)  
You baby, you baby, you baby  
(Hear me talking to you)  
Looking out the window when I woke today  
I wished you all the finer things the world could give you daughter  
Sunshine on your face, good health, prosperity and grace  
And time to reap what you've been sowing, love and laughter  
Had so many others in my life, none like you  
No one else can make me feel the things you do  
And if I had the chance to do it all again  
I'd do it 'cause you've always been my first love and my next of kin  
You baby, you baby, you baby  
(All I ever wanted was)  
You baby, you baby, you baby  
(All I ever needed was)  
You baby, you baby, you baby  
  
(I got the sun in the morning and the moon at night)  
You baby, you baby, you baby  
(I got a walk through the dark with a light so bright)  
Deep inside my heart of hearts  
Only heaven knows the things I pray for late at night when I'm alone  
Faith, hope, love and charity  
All these things for my family  
And from the moment that I wake up I say a little prayer for you  
Like Aretha said, 'I say a little prayer for you.'

You baby, you baby, you baby

(All I ever wanted was)

You baby, you baby, you baby

(All I ever needed was)

You baby, you baby, you baby

(Understand me ?)

You baby, you baby, you baby

(I know y'all hear me now)

All I ever wanted was a place to call my own

Just a little slice of paradise and home

I thank the Lord above for sending me your precious love

And from sunrise to sunup it's all about you baby yeah

You baby, you baby, you baby

(I got the sun in the morning and the moon at night)

You baby, you baby, you baby

(I got a walk through the dark with a light so bright)

You baby, you baby, you baby

(I got a joy and a happiness I've never known)

You baby, you baby, you baby

(I've got a love in my life and my own sweet home)
