Let the Fight Do the Fighting

Nada Surf

Hard cover books and silver frames
Because they're gone we drink your parents' bar
Three am not many cars
We go walking down the avenue doing
anything that makes us laugh
Do it but it's a stupid thing to do
I won't argue
let the fight do the fighting
let the right do the righting now
I can't have you even as an enemy
not everything is allowed
You're gonna wish that it was done
You're gonna wish that you were young again
You're gonna wish that is was fun
You're gonna want to have someone again
see what lands we have become
flight on the horizons everyday
I won't argue
let the fight do the fighting
let the right do the righting now
I can't have you even as an enemy
not everything is allowedI won't argue
let the fight do the fighting
let the right do the righting now
I can't have you even as an enemy
not everything is allowed
I won't argue
let the fight do the fighting
let the right do the righting now
I can't have you even as an enemy
not everything is allowed
