Universal Mind

Liquid Tension Experiment

I was doing time in the universal mind
I was feeling fine
I was turning keys, I was setting people free
I was doing all rightThen you came along
With a suitcase and a song
Turned my head aroundNow, I'm so alone
Just looking for a home
In every place I seeI'm the freedom man
I'm the freedom man
I'm the freedom man
That's how lucky I amI was doing time in the universal mind
I was feeling fine
I was turning keys, I was setting people free
I was doing all rightThen you came along
With a suitcase and a song
Turned my head aroundNow, I'm so alone
Just looking for a home
In every place I seeI'm the freedom manI was doing time in the universal mind
I was feeling fine
I was turning keys, I was setting people free
I was doing all rightThen you came along
With a suitcase and a song
Turned my head aroundNow, I'm so alone
Just looking for a home
In every place I seeI'm the freedom man
Yeah, that's how lucky I am
I'm the freedom manI'm the freedom man
