Cry! Oh Cry!

Sounds Like Violence

friend, i've lost another friend
pretend, that things will never end
time, time go real slow
the only thing we know is that we'll die somedaycry, oh cry
cry yourself to sleep night after night
my, oh my
dance away the pain that you feel inside
cry, oh cry
cry yourself to sleep night after night
my, oh my
baby, maybe
(tonight)...love, love, what about love?teens, lost little teens
waiting for something to appear
but they'll turn into machines
riot, let's bring up a fight
fight on through the night
cause i wanna taste some blood
