Moonstone

Serundal

Haven't said my point of view
I really don't want to bother you
I will see this whole thing through
I really don't want to bother you
I Will
Shoulder the winter snow
I Will
Hold her and let her go
Tattered posters ???
They wrote your name there on the wall
Numbers meaningless to me
What will it do to disagree

I Will
Shoulder the weight he'll need
I Will
Hold her and let her bleed
Moonstone has never shaw so bright
Never in its history
Cold water will wave you goodbye
But you never gone from me
I Will
Shoulder the winter snow
I Will
Hold her and let her go
