Waiting for You

Ben Harper

I've been waiting for you
Never found anything else to do
But waiting for youI've been calling your name
Never found anything else the same
Nothing's the sameI keep hearing your name
Nothing else sounds the same
As hearing your nameI've been hoping for you
What else can I do
But keep hoping for youYou can kill a lot of time
If you really put your mind to it
Or leave it all behind
And never go through itWhat else can I doKeep waiting for you
