World Tonite

Styx

A child is born in the world tonite
Underneath the full moonlight
And on the highway a fire starts
Diesel engines and broken heartsThe girls wanna dance, the boys wanna fight
Gonna get rockin' in the world tonite
Black cat howls, the mad dog bites
Something gonna happen in the world toniteUp in Heaven the starts align
Stirring up the world tonite
In the jungle the power's strong
And tribes are restless all night long, all night longAnd the girls wanna dance, the boys wanna fight
Gonna get rockin' in the world tonite
Tension's rising, you can cut it with a knife
Sticky situation in the world tonite, the world tonite
Big moon staring at the world toniteYoung blood run free
You could be anything you wanna be
Young blood run wild
You've got the will of a king and the heart of a childYeah, so gimme a beat 'cause here I come
Tonite's the night I'm gonna bang my drum
Gotta million watts on the tip of my tongue
And I feel like a trigger on a loaded gunCrank up the station
Shake the foundation
Wake up the nation
We got a situationWhere someone's got a button
Connected to a bomb
And it don't matter whose side you're on
They can have it all back by the morning light
All we want is the world toniteGirls wanna dance, boys wanna fight
Gonna get rocking in the world tonite
Read all about it in black and white
Everybody gone crazy in the world tonite
In the world toniteWorld tonite, world tonite
World tonite, world tonite
World tonite, world tonite
World tonite, world toniteWorld tonite, world tonite
World tonite, world tonite
World tonite, world tonite
World tonite, world tonite
World tonite, world tonite
