Let's Submerge

X-Ray Spex

It's dark and eerie
And it's really late
Come on kids don't hesitate
We're going down to the underground
We're going down we're going down
To the underground
Dagger glares from richard hell
The hades ladies are dressed to killTension heightening heating frighteningThunder rolls as fast as lighteningIf you've got the urge
The subterrene is a bottomless pit
Come on let's submerge
The vinyl vultures are after it
Moulten lava sulphur vapours
Smoulder on to obligerate us
If you've got the urgeCome on let's submerge
