Waiting For Go

The Dykeenies

Straight ahead
Subtitles seeing down on me
subtitle reaching all i see
no one wants you
Night again
reach out reach out for me
be brave no one can see
as the dark surrounds youterrified of you but not running away
my heart it was a stage and never played the game
sick of always seeing subtitles again
you've got the wrong message running through your brainmemory has served me far too well
science knows not to dwell
until it finds youterrified of you but not running away
my heart it was a stage and never played the game
sick of always seeing subtitles again
you've got the wrong message running through your brainwaiting for go
waiting for goterrified of you
terrified of youterrified of you but not running away
my heart it was a stage and never played the game
sick of always seeing subtitles again
you've got the wrong message running through your brainterrified of you but not running away
my heart it was a stage and never played the game
sick of always seeing subtitles again
you've got the wrong message running through your brainwaiting for go
waiting for go
waiting for go
waiting for...
