My Bae

Pia Mia

(Pre-Chorus)
Got your G stars on and you're wearing them jordan 3s.
Gold chain on your neck and you always smell like trees(Chorus)
You remind me of my bae
Whooa
My bae
You remind me of my bae
Whooa my bae
You remind me of my(Verse)
He ask 'bout you, I can't talk about it (whoa)
Even if I could, you wouldn't know about it (ohhh)
Say you he take good care and you don't compare
Actions speak louder than words
You be doin' too much, and he be right there
You give me what I deserve
In the back of my mind
I dream about you sometimes
Even though I got a good thing
Still wanna cross that line(Pre-Chorus)
Got your G stars on and you're wearing them jordan 3s
Gold chain on your neck and you always smell like trees(Chorus)
You remind me of my bae
Whooa my bae
You remind me of my bae
Whooa my bae
You remind me of my bae
You remind me of my bae(Verse)
And I be out here with him, with you on my mind all day
And when he touch me goodnight, I wanna scream out your name(Chorus)
You remind me of my bae
You remind me of my bae
You remind me of my bae
You remind me of my bae(Verse)
The way you walk and talk now (ohhhh)
Pick me up in a brand new top down
Eyes all low in the middle of the day but I still get high
When you look my way
Cause you're two of a kind and that makes cray
Got someone at home ,so I call you bae

In the back of my mind I dream about you sometimes
Even though I got a good thing
Still wanna cross that line(Pre-Chorus)
Got your G Stars on and you're wearing them Jordan 3's
Gold chain on your neck and you always smell like trees(Chorus)
You remind me of my bae
You remind me of my bae
You remind me of my bae
You remind me of my bae(Interlude)
We can do it, say you're with me
There go my bae, there go my bae
There go my bae
If you know it, how bout I know it
Say you with me
There go my bae, there go my bae
There go my bae(Pre-Chorus)
Got your G stars on and you're wearing them jordan 3?
Gold chain on your neck and you always smell like trees(Chorus)
You remind me of my bae
You remind me of my bae
You remind me of my bae
You remind me of my bae
