# The Destroyer

## Himsa

Flawless
So red raw and real
The beast of the street
Speaks faceless to meFierce
The deepest of depths
Sends daggers and fire
From each sharing endSummons
Outcry for battle
A living illusion
Straight to the heartI enter sanctuary
They bury the deadMakes way
For pain and promise
Dawning devotion
Numbing all in dismayStands aloneLash out
Strength in submission
Giving to exploits
A swift sudden deathSwarming
Hybrids of exile
Outlaws in anthem
Sketched in even scriptScreams clean
Sincerity
To break the crisis
Of a vacant pastWords of wisdom
Words as weaponsDestroyer
You're course remains unscathedDestroyer
You're course remains unscathedI enter sanctuary
They bury the deadAs the abyss
Is filled
And forgottenConviction
The sign of its times
Translates the quarrel with no objection
And issued
Sarcasm and war
To this distant boy
With more desperate needsMy commune
Safe haven
Secures my temperament
And in retrospect
I prevailed with the ones who saved my lifeDestroyer

You're course remains unscathedDestroyer
You're course is unscathedStand alone
