Call to Arms

Bodyjar

It's only fair that I should warn you
The day will come when
You know you've got to
Start coming around and
Say what you're thinkingTurn your back pretend
you don't care
Saying nothing will
get you nowhere
How can you believe a
word they were saying?This is a call to arms
If we get it right
This is a call to arms
Don't be afraid to fight for your lifeWhat you hear and
what you're reading
Soon become what
you're believing
Are you coming around
to my way of thinking?
