I Go Where I Go

Boy George

I go where I go
You don't need to let me know
I go where I go
Baby I know this ain't perfection
But you're good to me sometimes
Holding onto love for those moments
Some would say is a waste of my time
When I hold you up people say I'm sad
Sad and lonely
When you put me down people say I'm sad
But they don't know me
I go where I go
You don't need to let me know
I go where I go
Where I go
People tell me boy, it's foolish
Always got so much to say
Lovers, dreamers, come between us
But we always find our way
If you break my heart I will still be here

Like a broken fool
Told you from the start, pain won't make us part
That's the golden rule
I go where I go
You don't need to let me know
I go where I go
I go where I go
They don't tell us nothing new
We're as bright as day
Live on love, that's what we do
This is what I say
I go where I go
I go where I go
You don't need to tell me so
I go where I go
I go where I go
You don't need to tell me so
I go where I go

You don't need to let me know
I go where I go
You don't need to tell me so
