Defeated

The City Drive

Advisory - the following lyrics contain explicit language:

Add it up, all the times you've
Had enough, waterworks and
Endless, sleepless nightsHold it back, when the times comes
To attack, you'll be ready
They'll say, "You were right"And they'll be coming back to see
Everything that I've seen
They're gonna get it, got it, go'Cause you're gonna show that you're gonna go
All the way, all the way
You've gotta take it, if you wanna make it
All the way, all the wayYou want it, you need it, you won't be defeated
No, you won'tCan't you see it's in motion? Offer blood and devotion
Scars will heal in timeSmashing glass just to get past a cardiac
The harder that they come
The harder they will be falling downCrawling back to see, down on shattered knee
They're gonna get it, got it, go'Cause you're gonna show that you're gonna go
All the way, all the way
You've gotta take it, if you wanna make it
All the way, all the wayYou want it, you need it, you won't be defeated
No, you won'tAll your life, they cut you down to size
Everything in timeAnd what goes around, always comes around
And what goes around, always comes around
And what goes around, always comes around
And what goes around, always comes aroundYou want it, you need it, you won't be defeated
No, you won't
