Twisted

New Kids On the Block

You wanna feel, I'll let you feel, come over here
You don't know what love could do to youYou know that cuts, scars, bruises hurt so why you like it
You like all the screws, ties, twos, who
But I can do you're telling me, youre telling me you'reA little bit twisted
Can't feel your heart, you want me to twist it
A little bit twisted
Where does it hurt, tell me where to kiss it, kiss it, kiss it?
Where does it hurt, tell me where to kiss it?I believe you, I got you ill from all the love
I'll try not to kill you, get close enough butYou know that cuts, scars, bruises hurt, so why you like it
You like all the screws, ties, twos, who
But I can do, you're telling me, youre telling me you'reA little bit twisted
Can't feel your heart, you want me to twist it
A little bit twisted
Where does it hurt, tell me where to kiss it, kiss it, kiss it?
Where does it hurt, tell me where to kiss it?You need it more to get you where you are
I'll push you how you want it
Just tell me where to put itYou want it harder, need it harder
Girl it's harder, its how you like it
Girl it's been what you been missing
You need me to come and twist for youI'll come and twist for you
I'll even clean it for you
I'll hurt you if you like it
And then I'll twist it for youTwist for you, twist it for you
Twist for you, twist it for you
Twist for you, twist it for you
Twist for you, twist it for you
Twist for youA little bit twisted
Can't feel your heart, you want me to twist it
A little bit twisted
Where does it hurt, tell me where to kiss it, kiss it, kiss it?
Where does it hurt, tell me where to kiss it?Twist for you, twist it for you
Twist for you, twist it for you
Twist for you
Where does it hurt, tell me where to kiss it?
