Black Planet

David E. Williams

In the western sky
My kingdom comeSo still, so dark all over Europe
And I ride down the highway 101
By the side of the ocean headed for sunset
For the kingdom comeFor the black
Black planet
Black
Black worldBlack
Black planet
Black
Black worldRun around in the radiation
Run around in the acid rain
On a black
Black planetBlack planet hanging over the highway
Out of my mind's eye
Out of the memory
Black world out of my mindSo still, so dark all over Europe
And the rainbow rises here
In the western sky, the kill to show for
At the end of the great white pierI see a black
Black planet
Black
Black worldBlack
Black planet
Black
Black worldAnd run around in the radiation
Tune in, turn on
You burn out
In the acid rainOn a black
Black planet
Black
Black worldBlack
Black planet
Black
Black worldBlack
Black planet
Black
Black worldBlack
Black planet

Black
Black world
...
