Goldrush

Dragonette

Hey I know your game
I know you need me
Say isnt it great
Im always here
I, as in I
As in the one in front of you
I, I never lie
Ill make sure that youre alrightGoldrush
Everyone wants some of that stuff
Its the cure but you cant get enough
Go on have another
I think youll discover
You may never recoverWho can you trust
Im always watching
Im the one you love
The one you cant get rid of
We, like you and me
Its you and me
Please, youll never leave
What would you do without meGoldrush
Everyone wants some of that stuff
Its the cure but you cant get enough
Go on have another
Goldrush
Everyone wants some of that stuff
Its the cure but you cant get enough
Go on have another
I think youll discover
You may never recoverYou can hear me on the radio
Im sitting in the back seat of your car
Im inside your engine
Im keeping it running
Are we getting physical
Dont touch me Im invisible
My hands in your pocket
My numbers in your wallet
And Ill make sure you call it
To get that old rush
I know you want itI know you do

I know that youve been calling
Now Im coming to get you
You know who
Will catch you when youre falling
I can pick you up
Goldrush
I can pick you up
Oh the rush
I can pick you up
Pick you up into theGoldrush
Everyone wants some of that stuff
Its the cure but you cant get enough
Go on have another
I think youll discover
You may never recover
You may never recover
You may never recover
You may never recoverI dont mind the rain or shine
I always have a better time
Im tip-top shape when Im with you
Im tip-top, tip-top
Time flies tick-tock
Im tip-top shape when Im with you
