Out For Love

Slaughter

Let's start this party with a little direction
Raise your hands, c'mon and stomp your feet
We're all lookin' for complete affection
Forget your chairs, c'mon get off your seatsLet's all go and set the world on fire
Everybody stand up and unite
All of this twisting and turning and screaming and burning
This show stays open all nightOut for love
You know we're out for love babe
Love, love, love
Out for loveYou know we're out for love
There's no control, it's like a fatal attraction
C'mon up just run through the aisles
No one can stop you, it's a chain reactionSo crank it up
This audience has got styleLet's all go and set the world on fire
Everybody stand up and unite
All of this twisting and turning and screaming and burning
This show stays open all nightOut for love
You know we're out for love babe
Love, love, love
Out for love
