The Way You Found Me

Ben Harper

The more I smoke, the more I drink
The more I talk, the less I think
The less I think, the more I feel
Folks don't change, they just revealSo take me as I am
Or leave me the way you found me
The way you found me
The way you found meMy mind is broke, my last nerve is shot
What you want from me, I ain't got
Two plus two will never be twenty-two
So please don't tell me twice what I need to doYou got to take me as I am
Or leave me the way you found me
Just the way you found me
The way you found meOh, now there's no rules to lust
Only passion and it can be so unjust
If we don't speak, we'll get along just fine
Don't ask me how I'm doing 'cause you know I don't feel like lyingNow take me as I am
Or just leave me the way you found me
The way you found me
The way you found me
