GHOULS

Powny Lamb

We all recognize that I?m the problem here
We all recognize that I?m the problem here
It?s impossible to know or so it seems
What I?m supposed to do with you on anything
I know that playing this time is going to fall on me
?Cause we all recognize that I?m the problem here
Can?t help but feel attacked, what?s that supposed to mean

I know I won?t relax or act like it?s no big deal
This happens all the time, it?s kind of our routine
But we all recognize that I?m the problem here
We all recognize that I?m the problem here
We all recognize that I?m the problem here
We all recognize that I?m the problem here
We all recognize that I?m the problem
