Beyond Sensual

Dies Irae

The inexorable aim, aim of illumination
Verification of theories on different levels
Engaged entirely beyond sensual
Without consolation in half wayMode is direct, uncertain of significance
Lost amongst gaping sea of views
Diversification, deep urge
Penetration of conditionsLatent for mortals for their blares
Unwitting way of answers
Self assurance, lack of scrutinity
Mixed with envyI am hungry, gaze delineate the path
Of ubiquitous, I am immerse in this sea
To fight right answer for right question
