Stolen Car

Charlotte OC

Stolen Car Patty Griffin (1000 Kisses) I met a little girl and I settled down In a little house on out on the edge of town Then little by little we drifted from eachother's hearts We got married, swore we'd never part At first I thought it was just restlessness In the end it was something more, I guess That it'd fade as time went by, and our love would heal Tore us apart and made us real I'm driving a stolen car Down on Eldridge Avenue But I never do Each night I wait to get caught She asked if I remembered the letters I wrote She said last night she read those letters When our love was young and bold And they made her feel one hundred years old I'm driving a stolen car And I'm telling myself It's gonna be all right On a pitch black I drive by night And I travel in fear That in this darkness I will disappear
