Venus

Tatsh

Just gettin' off my job around Wall Street, wit the ties on
Finest girl, a brother think he ever set eyes on
Nice day, rather sunny as we made a run for honey
Where the warm press violets, violence on the run
How I turned right there, seem kinda funny there
One in there, as he tellin' me he could get the underwear
Meanwhile, still jockin' her, like a real sucka
Sister which was so fine, she could AIDS, I'll still knock her
Heartbeatin' for since a brother didn't figure eatin'
As I ask her if she's single, ya caught my nigga cheatin'
Nice to meet ya, leash ya, don't combine features
Watched her walk away and observin' the fine creature
Next day again, what an unvite surprise to us
Ran into to so much her and her friends startin' hang wit us
The pair of mood don't find the bowl swine
Can I take you out to movies while I dine the whole nine?
She condone 'cuz riddance, nigga slid the song
Didn't want to get to bone her though I knew I didn't own her
And I could of made a move, a little will power 'cuz all of though
She told me she liked him as a friend and that was all
And since she hang wit us, shorty told her queen freak of the week
On my birthday bought me pair of Gucci sneakers
Did she like me risk, then I thought, was it fine guess or unmoral
When she saw me got me dissin' kinda special
Since wit this dish, none of bay, if everybody wanna play
How long is money gonna weigh, so I asked a honey on a date
And she accepts, thought it was much planned
Windows of the world even had the nerve to touch her hand
Though I'm lookin' at, bashful, no socks
Pull of what's a shine and the hun pulls closer
Thought clever hint, so what she straight, never been so excited
And convinced, kissin' heaven ever since
Hold her hand to chillin', feature man to build
Can't believe my dream fulfilled all in the girl
Began to hill by singin'
Lady if you will
Say you're the one that sent for me to thrill
Some one that I can hold close in my arms
With all the charms of you

With all the charms of you, of you, of you, of you
Of a lady, this world is just for ladies
A heart screams out to ladies
A world of loves for you, baby
