Loathe

Columbus

I can't deny it, I fucking like it
It brings on confidence and courage that I lost
I turn into it, it helps me through it
Until I lie awake and contemplate it all
You can't break me
Taking hold of it all
I've finally gone straight down
I can't deny it, I lie and loathe
I've finally gone straight down
I can't deny it, I lie and loathe
I know I hate you, I can't escape you
You bring me emptiness and nothing I've become
I can't resist it, I wouldn't miss it
It's finally coming out, the darkness and the cold
You can't break me
Taking hold of it all
I've finally gone straight down

I can't deny it, I lie and loathe
I've finally gone straight down
I can't deny it, I lie and loathe
Loathe, you fucking loathe
You fucking loathe
Loathe, you fucking loathe
You fucking loathe
You fucking loathe
Loathe
I've finally gone straight down
I can't deny it, I lie and loathe
I've finally gone straight down
I can't deny it, I lie and loathe
You fucking loathe
You fucking loathe
You fucking loathe
