Punk Rock Rebel

Millencolin

Yeah, hardcore skater used to be
One of few who inspired me
To get into the punk rock scene
The year I turned seventeen
Our first song ever Danny wrote
For teenage angst, he was the antidote
An uncut diamond, full of strife
His first demo changed my life
He's a rebel, it's plain to see
Punk rock rebel, so full of strife
He's a rebel and he'll always be
Someone who changed my life, yeah, changed my life
It takes a lot for a man to stayed unbowed
He's the one and only swag and proud
Partners, we have been in crime
And in music from time to time
Although most known for his drinking skills
It's not the side of him that gives me thrills
It's his gifted poet, I see in Dan
To me, he'll always be the man
He's a rebel, it's plain to see
Punk rock rebel, so full of strife
He's a rebel and he'll always be
Someone who, yeah someone who changed my life
Changed, sophistic, shake it, swag, partner
Yeah, hardcore skater, he's used to be
One of few who inspired me
Woah, an uncut diamond, he's so full of strife
And his first demo, now had changed my life
He's a rebel, it's plain to see
Punk rock rebel, so full of strife
He's a rebel and he'll always be
Someone who changed my life
He's a rebel, it's plain to see
Punk rock rebel, so full of strife
He's a rebel and he'll always be
Someone who, yeah someone who changed my life
Yeah, changed my life
Punk rock rebel, punk rock rebel

Yeah, yeah take my life, take my life
An uncut diamond, full of strife
An uncut diamond, full of strife
He changed my life
