Penelope Tree

Felt

I didn't want the world to know
That sunlight bathed the golden glow
Lonliness is like a disease--
Triggers off my sense of unease
I was lonely till I found the reason
The reason was me
Oh, Penelope Tree
Why don't you just enter the night?
Why don't you just do what you like?
Loneliness and all that heartache
That's something I just can't take
You've got your head on back to front
That's easy, so easy for me
Oh, that's easy for me
You know that's easy for me
Oh, Penelope Tree
Hey, tell me: Why are you so scared?
It's like the beginning
Go there
Goldmine trash seeks brave dark warrior
What are we doing and why are we here?
Why must we die?
Oh, no no no, that's easy, so easy for me
Oh, that's easy for me
You know that's easy for me
Oh, Penelope Tree
For me
Oh, Penelope Tree
