Daydreams

Cristin Claas

I could not sleep last night
That's not your problem
I've got my problems
I watched you sleep last night
That's not your problem
I've got my problemsIt's hard to understand
It gets so hard to be your man
I would give you anything
But I don't have anything
Just these crazy daydreams
And they are not worth anythingI got so high last night
That's not your problem
I've got my problems
I tried to forget my life
That's not your problem
I've got my problemsIt's hard to understand
Take your time, take your time
Hey girl, I'm so glad
That we could have this time together
So I could let you know
Just exactly how I feelYa see, it's been been hard to talk to you
'Cause you never listen, you're so selfish
You never shut up and you know
I don't have any money
And I can barely pay my billsBut you don't care
You're so selfish
What do you want from me?
It's hard to understand
It gets so hard to be your man
