Apart

Kai Exos

When we are apart
For even an evening
I see you in all of my books
All the books I'm readingThe hearts float as you'd imagine
Behind your head, exponential
And closer stillYou're there when I'm home from work
Workin so hard for us
And what may be, rather what will be
A never-ending, unstoppable love story
And closer stillWhen we are apart
For even an evening
I see you in all of my books
All the books I'm readingI admit I think of you
Thinkin of what you're Doin and who you're with
But you're there when I'm home from work
Workin' so hard for us
We could just spend the night insideBecause I saw a girl who was all I could want
She moved like she talked
Slowly, careful
Oh I should tell you, share a small thought:
I think that I love herEven an evening
All of the books I'm reading
You are mine
