Turning Me On

Tommy Page

I can't keep my eyes off you
Face to face, you're a dream come true
Make me shake, the way you do
Sexually, I'm attracted to youYou're really, really turning me on
(On, on, on)
The more and more I stare at you
The closer I'm drawn'Cause you're really, really turning me on
Really, really turning me
Really, really turning me on
(On, on, on)You've got me so mesmerized
Tantalized, you've got me hypnotized
Gazing deep into your soul
I can't help this, I'm losing controlYou're really, really turning me on
(On, on, on)
The more and more I stare at you
The closer I'm drawn'Cause you're really, really turning me on
Really, really turning me
Really, really turning me on
(On, on, on)I never wanted to touch somebody
The way that I want to touch you
And I know that you feel the same way
So let's goTurning me, turning me, turning me on
Turning me, turning me, turning me on
On, on, on, on, on, on, on, on
Really, really turning me on, on, on, onI can't help myself when I'm next to you
I'm holding back from doing things I want to do
You better watch yourself 'cause I'm not that strong
And you're really, really turning me on
(On, on, on)Turning me, turning me, turning me on
Turning me, turning me, turning me on
On, on, on, on, on, on, on, on
Really, really turning me on, on, on, on
