Vigilante

Kai Exos

[Verse 1:]
remember how we lived / make the best of what you got love when you cannot / she kept watch upon her own
oh vigilante / hold fast to what you know
welcome what you don't[Chorus:]
let our own hands / carry us through and don't let them escape / 'til you know just how they got over the walls in our house
oh vigilante, will you protect me?[Verse 2:]
i am in ruins / stone by stone
crushed below / the weight of my own / deliberate decisions i grant you permission / oh vigilante
continue your mission[Bridge:]
that place we once went to / down there by the lake i went there by myself / just to find my way...
