CHANGE my LIFE

Dâ˜†DATE

Car culture looks out at you
Drivin through a Friday night on your own
You dont have to please me
Or pick up my tab
Dont have to go too fast
Just change my life
Change my life
Change my life
Change my life

I miss that way you hold yourself
I miss the sense of wonder inside
Dont wanna be your victim for life
Dont want your exclusive rights
I just want you to change my life
Change my life
Change my life
Change my life
