Hawkmoon 269

U2

Like a desert needs rain
Like a town needs a name
I need your loveLike a drifter needs a room
Hawkmoon
I need your love
I need your loveLike a rhythm unbroken
Like drums in the night
Like sweet soul music
Like sunlight
I need your loveLike coming home
And you don't know where you've been
Like black coffee
Like nicotine
I need your love (I need your love)
I need your love (I need your love)
I need your love (I need your love)When the night has no end
And the day yet to begin
As the room spins around
I need your love
I need your loveLike a Phoenix rising needs a holy tree
Like the sweet revenge of a bitter enemy
I need your loveLike the hot needs the sun
Like honey on her tongue
Like the muzzle of a gun
Like oxygen
I need your love (I need your love)
I need your love (I need your love)
I need your love (I need your love)When the night has no end
And the day yet to begin
As the room spins around
I need your loveI need your love
Whoa!
I need your love
I need your love
I need your love
I need your love
I need your love
I need your love
I need your love

I need your loveLike thunder needs rain
Like a preacher needs pain
Like tongues of flame
Like a sheet stained
I need your love
I need your loveLike a needle needs a vein
Like someone to blame
Like a thought unchained
Like a runaway train
I need your loveI need your love
I need your love
I need your love
I need your love
I need your love
I need your love
I need your loveLike faith needs a doubt
Like a freeway out
I need your loveLike powder needs a spark
Like lies need the dark
I need your loveIn the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
In the heart of the heat of the love
