Light Shine (Funk Escape Remix)

Tomas Barfod

From Danny Howells Miami ALbum
and sunset and sunrise 5 (disk 2 track 9)
(lyrics found on youtube)A million miles to pass, remain
Horizon thinks I'm trying to restrain
Certainly I know where to turn
My fear is clear, don't know how to yearn(chorus) Light shine bright, on me, on me Light shine bright, on me, on me Light shine bright, on me, on me Light shine bright, on me, on meMemory lanes so far, though so near
No turning back, I'm smiling through my tears White windows between lights the day
My brighter light is telling me the way
(chorus)
(sunrise version final lyric:
Come back to me...light shine...)
