

Disco Tech

Carole King

If you want to get a real education
Come to the friendliest school in the nation
Rhythm is our way of communication
You won't ever want to take a vacation You can meet the Dean of Boogaloo
He's gonna get down and boogie with you
At Disco Tech
Let me be your teacher
Disco Tech
Why don't you take home a diploma from
Disco Tech We won't give you pomp and circumstance
All you're gonna need to do is dance
Why don't you enroll, give your soul a chance
You might even find a new romance Everybody here is graded A
The only school records are the ones we play
