Jerusalem - Sufferpolis

Arkan

Here you are finally
You're the one i was waiting for
Hear my words carefully
We often face our fate
Through the ways
We've taken to avoid itFrom the bottom of my soul
I will be your guiding sign
Through the sorrow and the pain
The brotherhood we've found
Can never ever fade
And will always be the sameI lead you to the other side
The new sun is rising
On orshalim
Let me see inside your soul
Let me show you the way
Beside my silent friend(arabic singing)Invaded by your pain(arabic singing)
