Kamikaze

The EFFENS

The princess in her flower bed
Pulled the jungle underground
Where cherry bombs stained the blackbirds red
And explosions never make a sound
Oh comet, come down
Kamikaze over me
And I come alive
My midnight melody
Oh comet, come down
My captain on a snowy horse
Is coming back to take me home
He's coming back to take me home
I'm finally fighting back a terrible force
'Cause I'm not afraid to die alone
Oh comet, come down
Kamikaze over me
And I come alive
My midnight melody
Oh comet, come down
Kamikaze over me
And I come alive
My midnight melody
Oh comet, come down
Oh comet, come
Oh comet, come down
Break down the open road
Maybe I'll ride
And fight back the overtow
To save my life
Bring in the amber glow
Maybe I'll fly
And go where you wanna go
With your eagle eye
Break down the open road
Maybe I'll ride
And fight back the overthrow
To save my life
Bring in the amber glow
Maybe I'll fly

And go where you wanna go
With your eagle eye
Eagle eye, eagle eye
Eagle eye, eagle eye
Eagle eye, eagle eye
Eagle eye, eagle eye
Eagle eye, eagle eye
Eagle eye, eagle eye
