

# Strong Enough

[HAIM](#)

Trying to figure out  
Just where your life is goin'  
Can you see the picture  
In the purple sky?  
Silently you're walkin'  
But where are you headin'?  
Questions terrorize, ah, yeah  
Space inside your mind, ah, yeah  
Are you strong enough for love?  
Are you strong enough for peace?  
Are you strong enough to die?  
Tell me why  
I'm strong enough for you  
Are you strong enough for me?  
'Cause down, down in the city  
Love ain't always pretty  
They try to take your soul and mind  
But you won't let them  
Never wear your destiny  
Outside your smile  
Always talk in riddles  
So you keep them guessing  
Never criticize, ah, yeah  
Keep an open mind, ah, yeah  
Are you strong enough for love?  
Are you strong enough for peace?  
Are you strong enough to die?  
Tell me why  
I'm strong enough for you  
Are you strong enough for me?  
'Cause down, down in the city  
Love ain't always pretty  
They're holding out their hands  
Begging for some time  
Can you spare a shilling  
Can you spare a life?  
You try to give them food  
But they just refuse you  
Deep down inside, ah, yeah

You know you've tried  
Are you strong enough for love?  
Are you strong enough for peace?  
Are you strong enough to die?  
Tell me why  
I'm strong enough for you  
Are you strong enough for me?  
'Cause down, down in the city  
Love ain't always pretty  
'Cause are you strong enough?  
Strong enough for me?  
Strong enough  
Strong enough to see  
Strong enough  
Strong enough to be  
'Cause down, down in the city, yeah  
Love ain't always pretty  
Strong enough for love?  
Are you strong enough for peace?  
Strong enough to die?  
Tell me why  
Strong enough for me  
Oh, I'm strong enough for you  
'Cause down, down in the city, yeah  
Love ain't always pretty, no  
You're strong enough for me  
I'm strong enough for you  
You're strong enough to see  
That down, down in the city  
Yeah yeah, yeah yeah, yeah yeah  
Love ain't so pretty
