Beehive

Brian Reitzell

The tree of life
The one you need
The volunteer
That grew now seems
A beehiveWon't you be the one to tell me?
All our lives are calling
And where to beginYou light your lamp
Your lamp goes out
And kerosene
Spills on the ground
A beehiveThere I ran across a field
A thousand reasons start beginning
In your songBring you lilac wine
Bring you lilac wine
Something I could do
Something I could save for youBeehive
BeehiveWhat you see has been before
What will come
Your vandals dropped
A beehiveCan you see? Another side
To live right my love you reached
Across the skyBring you lilac wine
Bring you lilac wine
Something I could do
Something I could save for youBeehive
Beehive
