Fidelity

Alex Pusher

Taught the ways of men since I was a child
Watching brothers in the streets running wild
They love a honey up then drop her back down
I'm here to give you solid loving pound for pound, yea
Don't worry about thing baby
I'll always do you right
Don't worry about a thing baby
I'll tell you about it girl
Don't you know? You were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to you
Just 'cause I'm a man don't mean I'll let you down
You've been my pride and joy, you're heart's safe and sound, yea
When I had nothing you were right by my side
I came from rags to rich, now I'm living high, yea
Oh I still love it when we play all day
Looking at each other's eyes and find sweet things to say, yea
I understand a man who wants to fool around
But if he knew what I knew about you I know he'd always be down
Don't worry about a thing, baby
I'll always treat you right
Hey hey yeah
Let me tell you girl
You were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to you
I said, you were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to you
Don't you worry about a thing
And I know that sounds so plain
'Cause I can tell you anything
To get me out of water
I know it's going to be rough sometimes
You never have to try to find another
You were always there for me

I could never let you free
Cross my heart that I can be strong
And devoted to you
