

Overboard

The Silver Lake Chorus

Safe inside our little story
Don't you wonder what it means
But you only speak to say
It's never gonna happen to me So please don't slow us down for logic
Since when is bending spoons a crime
And God only knows the patience
I'm tired of waiting for a sign Cause baby life is short
So let's go overboard
I've never been so sure
So let's go overboard
Overboard Just squeeze me hold me your neurosis
And wrap me tightly in your skin
It's okay it's not okay there's nothing
And everything is everything Cause baby life is short
So let's roll overboard
All I want from you is more
So let's roll overboard
Overboard Here come the waves
I'm not afraid
Not at all Here comes the change
I'm not afraid
Not at all Here comes the pain
I'm not afraid
No not at all Here come the waves
I'm not afraid
Not at all Cause baby life is short
So let's roll overboard
All I want from you is more
So let's roll overboard
Overboard
