Where Is My Castle

Connie Smith

More than once I've cried because impatience let me down
I could see the gold before the gold was found
And everytime I've trusted love to lead me by the hand
It circled back and left me where I stand
Where is my castle where is my destiny how much longer will I have to dream
Where is my sunshine where is my valley where is the love that's meant for me
[steel - fiddle]
The next time I cross over that old bridge I'm gonna stay
I don't care if the river washes it away
Cause I'm not gonna take one step until the day I find
A man with a faithful heart and a made up mind
Where is my castle...
