Warm Spot Hot

Roy Orbison

You make my warm spot hot
You make my bells ring too, ding, ding
You make my warm spot hot
And the things I need a lot, you got
Oh, my little baby
You know, you drive me crazy
You make me feel so good, I say wow, yeah
This has got to be the only way for me
There ain't nothing going to stop me now
You say your daddy don't like me much
Thats 'cause he knows I got that touch
And there's some things of yours he knows
I been touching too much
But you make my warm spot hot
You make my bells ring too, ring, ding, ding-a-ling
You make my warm spot hot
The things I need a lot, you got
You've got me turning flips
When you kissed me in the lips
You turn the spark right into a fire
And the flame just won't go out
'Cause there can't be any doubt
This love of yours is what I desire
The preacher said I ain't no saint
Well, he's right, that's one thing that I ain't
But I pray that me and you
Can do the things we do all night long
'Cause you make my warm spot hot
You make my bells ring too, bring, ding, ding
You make my warm spot hot, baby
The things I need a lot, you got
Come on and burn me now
Well, I'm letting all the people see
That what they say don't bother me
'Cause you're the one I'm thinking of
When I get down ready to love
Make my warm spot hot
You make my bells rings too, ding, ding
You make my warm spot hot

And the things I need a lot, you got
You make my warm spot hot
You make my bells ring too, bring, ding
You make my warm spot hot
You make my bells ring too, ding, ding, ding a-ling
You make my warm spot hot, baby
You make my warm spot hot
You make my warm spot hot, baby
You make my bells ring too, bring, ding, ding
You make my warm spot hot, baby
